2021 Performance Highlights

The Group has reported a profit before tax of Shs 1.0 billion for the financial year ended 31 December 2021. This is a significant improvement compared to a loss before tax of Shs 9.70 billion reported in the financial year ended 31 December 2020.

The improved performance is attributed to a growth in Gross earned premiums from new business and investment income from the group's investments. Additionally, the business also recorded fair value gains from its investments in listed equities. This followed an improvement in the operating environment.

The Group registered significant growth in interest and dividend income as it continues with the re-allocation of its investment portfolio to grow yields. The Group's investment income grew by 15.7 percent to Shs 10.9 billion from Shs 9.4 billion recorded in the previous financial year ended 2020.

The business continued to experience growth from both the local and regional businesses. Overall, the Group's Gross earned premiums and management fees grew by 12.8 percent to Shs 32.5 billion with the regional units continuing to significantly contribute to revenue growth and profitability. The regional general insurance business recorded an increase in Gross earned premiums (GEP) of 3.3 percent to Shs 8.1 billion, from Shs 7.9 billion reported in 2020. This business now contributes 25.5 percent of the Group's Gross earned premiums.

The Group's total operating costs were down 15.8 percent to Shs 11.3 billion. This is despite the business incurring a one-off business transformation expense as part of implementing its new transformational strategy.

The life assurance business continues to grow with embedded value as at 31 December 2021 of Shs 17.2 billion, representing a return of 6.6 percent as the business continues to underwrite profitable new business coupled with an improving operating environment.
