2022 Performance Highlights

Commentary on the Group 2022 Financial Results

The Group has reported a profit before tax of Shs 2.95 billion for the financial year ended 31 December 2022. This is a significant improvement compared to a profit before tax of Shs 1.01 billion reported in the financial year ended 31 December 2021.

The improved performance is attributable to a growth in top line revenue as well as operating efficiency and cost management initiatives. This together with improved dividend and interest income helped cushion the significant fair value losses to register improved profitability.

Overall, the Group's gross earned premiums and fund management fees grew by 2.7 percent to Shs 33.4 billion with the regional units continuing to significantly contribute to the Group's revenue and profitability. The international general insurance businesses contributed 23 percent of the Group's gross earned premiums.

The Group remains focused on the improvement of operating efficiency. Total operating costs were down 26.1 percent to Shs 8.4 billion from Shs 11.3 billion reported in 2021. Reduction in costs is due to efficiencies derived from cost containment measures under the new strategy's operating model.

The total shareholders equity as at 31 December 2022 stood at Shs 20.8 billion. This is a 9.2 percent increase from 31 December 2021 reflecting the improved financial results.

The ongoing execution of the Group's EPIC² #OneBritam Transformational Strategy is expected to continue creating value by growing the business and its profitability.
