HALF-YEAR 2025 FINANCIAL OVERVIEW AND STRATEGIC OUTLOOK

The Group delivered a solid profit before tax of Shs 2.5 billion in the half-year ended 30 June 2025. This was despite a declining yield curve and very challenging macro-economic conditions. This underscores the effectiveness of Britam's strategic direction and resilience in a dynamic operating environment.

Looking ahead, Britam is well positioned to capitalize on emerging growth opportunities in the second half of the year as interest rates stabilize and macroeconomic conditions improve across its markets.

Insurance Revenue:
The Group recorded an 11% increase in insurance revenue to Shs 19.7 billion, driven by sustained growth across both the Life and General insurance segments. This reflects the Group's continued focus on expanding its core business lines, strengthening our position in the group's largest markets and deepening market penetration.

Interest and dividend income grew by 16% to Shs 10.6 billion, attributable to enhanced portfolio management and the successful realignment of investment strategies to optimize and stabilize returns.

Balance Sheet Strength:
The Group's balance sheet remains solid, with total equity rising to Shs 31.2 billion from Shs 29.5 billion as at 31 December 2024. This improvement highlights Britam's strong capital position and its capacity to withstand market volatility.

Strategic Initiatives and Outlook:
The Group's performance is a testament to the successful execution of its customer-centric and prudent investment strategies. Looking ahead, Britam remains committed to driving sustainable growth, operational excellence, and delivering enhanced value to its shareholders.
